KUKKALA POOJITHA

Full Stack Web Developer | MERN Stack | REST APIs | JWT | React.js | Node.js | Express.js

Phone: +91-9866167178 | Email: poojithakukkala0@gmail.com
LinkedIn:linkedin.com/in/kukkalapoojitha/ | GitHub: github.com/poojithakukkala0-alt
Location: Guntur, Andhra Pradesh, India 522111

Summary

Motivated and detail-oriented Computer Science and Engineering student with hands-on experience in Full-Stack Web Development. Skilled in developing secure and responsive web applications using React.js, Node.js, Express.js, MongoDB, JavaScript, and REST APIs. Successfully completed multiple real-world projects involving authentication, CRUD operations, real-time communication, and database management. Passionate about building scalable applications, solving real-world problems, and continuously learning modern technologies.

Education

Vignan's Foundation for Science, Technology and Research Guntur, Andhra Pradesh
B.Tech – Computer Science and Engineering 2024 – Present
CGPA: 8.4

Internship Experience

Full Stack Web Development Intern 2026
Prodigy InfoTech

- Developed secure web applications using React.js, Node.js, Express.js, and MongoDB.
- Built RESTful APIs for authentication and data management.
- Implemented JWT-based authentication and password hashing using Bcrypt.
- Designed responsive user interfaces for desktop and mobile devices.
- Integrated MongoDB Atlas for cloud database management.
- Built CRUD applications following industry-standard practices.
- Used Git and GitHub for version control and collaboration.
- Successfully completed multiple internship projects within the given deadlines.

Projects

Secure User Authentication System
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Bcrypt

- Engineered user registration, secure login, password hashing, and protected dashboard routing.
- Integrated REST APIs alongside MongoDB Atlas for persistent cloud storage.

Employee Management System
Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built full employee CRUD operations, form validation scripts, and a responsive frontend dashboard.
- Structured back-end relational architecture with seamless MongoDB database integration.

Real-Time Chat Application
Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT

- Built instant messaging, secure session authentication, and live real-time communication sockets.
- Designed an adaptive chat room interface backed by a persistent MongoDB architecture.

FreshMart Shopping Website
Tech Stack: HTML, CSS, JavaScript

- Designed an interactive user interface featuring modern product listings, an active wish list, and a complete shopping cart.
- Optimized layout across all viewport breakpoints using modern CSS flexbox frameworks.

Technical Skills

Languages: Java, JavaScript, Python, C
Frontend: HTML5, CSS3, React.js, Bootstrap
Backend: Node.js, Express.js
Database: MongoDB Atlas, MySQL

Tools: Git, GitHub, VS Code, Postman
Concepts: REST APIs, JWT Authentication, Bcrypt, CRUD Operations, Responsive Web Design, Socket.IO

Certifications

- Full Stack Web Development Internship – Prodigy InfoTech
- Java Programming Certification
- Git & GitHub
- MongoDB Basics
